

Industry Custom Pricing (ICP)—Participating industries and re-polling schedule

Industry Custom Pricing (ICP) is an important part of our performance pricing strategy. It is designed to increase accountability among employers while offering flexibility to industry to determine how their premium rates are set. Pricing programs can provide greater incentive to reduce injuries and lower claim costs. Safer workplaces produce better outcomes for workers and ultimately lower premiums and the cost of doing business for employers.

ICP emerged from stakeholder consultation on experience rating, and since 2008, industries have had the option to participate in this program. Some key facts:

46% of all industries (160 out of 346) participate in ICP.

- Approximately 45% of the provincial workforce is covered by employers participating in ICP, making up approximately \$57 billion in assessable earnings.

Effective 2024, industries in ICP will be re-polled every five years to confirm their participation or return to standard pricing. An early re-poll (in the third or fourth year) may occur if there is strong evidence the industry wants to modify or opt out of the ICP program.

Below is a current list of industries that have chosen to participate in ICP and the current schedule for re-polling.

Industry code	Industry description	ICP features		Last year polled	Scheduled to be re-polled
		CR	ER		
1103	Poultry Loading Services	✓		2012	2027
1201	Feed Lots	✓		2012	2028
